

Garden City Community School Year-Round Recycling Fundraiser

**Please help us keep our Planet Earth Green
And raise money for our playground surface and
equipment!**

This year Garden City Community School has linked with a local business, Project K.O.P.E.G (Keep our Planet Earth Green), to participate in an ongoing used electronics items recycling program. We're asking for your help by donating the following used items:

| | |
|-------------------|---------------------------------|
| Cell Phones | printer inkjet/toner cartridges |
| Digital Cameras | PDAs/Palm Pilots |
| iPods/Mp3 players | Blackberries |

(and any accessories you have for these items)

Project K.O.P.E.G will give our school money for all donated items that can be refurbished. All that cannot be reused/refurbished will be recycled in accordance with EPA regulations. So....we can care for our environment and earn money for GCCS!!!!

There is box inside the school where you can drop off your donations.

**We are excited about this program
and look forward to your participation!
Thank You!**

Donations may be tax deductible. If you have questions regarding this program, please contact Rebecca Ernst 208-283-5325 or visit the website www.ProjectKOPEG.com.
